Join us for a **Live Webcast** of the 13th Annual Privacy & Security Conference!!

Webcast Title Sponsor

Click [here](#) for online registration.

Can't attend the conference in person? Already have plans for the conference dates? Not a problem. This year the Government of British Columbia and Reboot Communications have partnered with CommonSkys to broadcast a large part of the conference live over the internet. Our goal is to make your webcast experience as interactive as possible:

- Download session handouts
- Offer your feedback via polls and surveys
- Interact with speakers and panelists with a live Q&A application
- Network and exchange ideas with onsite and online participants via Twitter; feeds are easily accessible as they are part of the webcast window

In addition to the live webcast, we will be recording presentations for online viewing after the conference, available to all individual conference and webcast registrants for 24/7 on-demand viewing for one full year (Group Rate purchases include up to 24 individual on-demand logon IDs – please enquire if a greater number is required).

On-demand recordings offer you the opportunity to review presentations and to "attend" the concurrent presentations that you would not have been able to see during the conference.

The Victoria Conference Centre is a great venue for a conference, but if you are unable to join us in person for one of the pinnacle events on privacy and security in North America - don't miss the opportunity... register and participate in the online event webcast.

2012 Webcast sponsored in part by:

Microsoft

Grant Thornton

For this year's topics, speakers and information on all the sessions that will be webcast, as well as on-line registration please click [HERE](#)
